

# Attachment for One-Pin Acoustic Guitars:

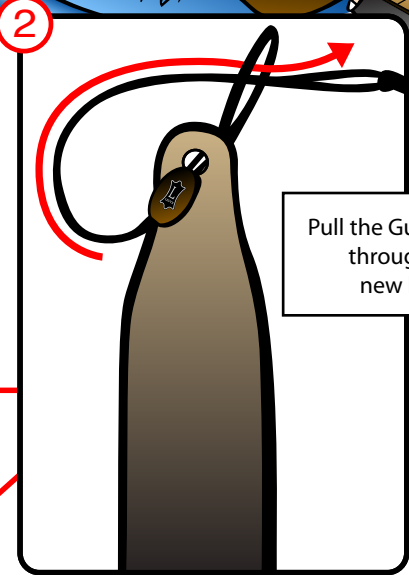

Your guitar is worth it.

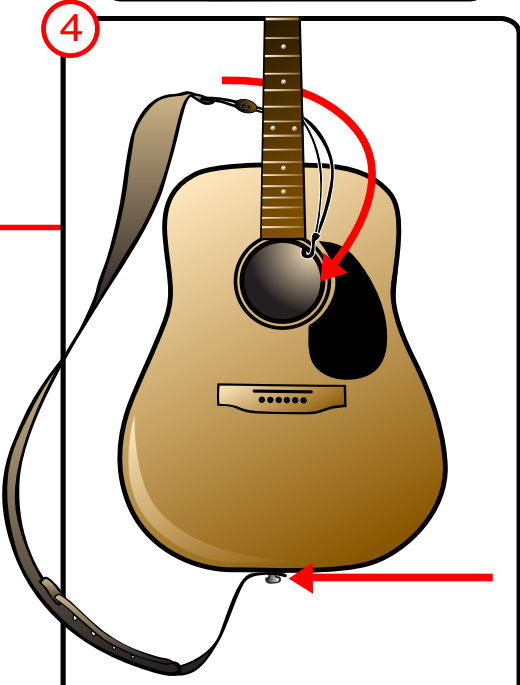

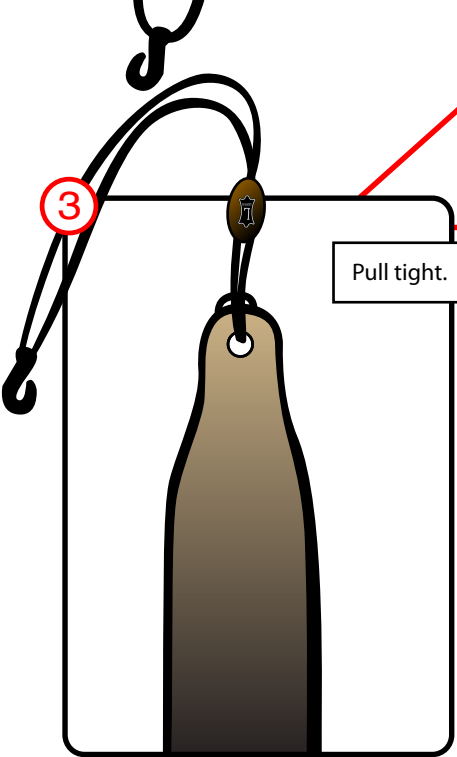

For one-pin acoustic guitars, Levy's provides the Gulley Hook, sold separately.

Loop the braided lace of the Gulley Hook through the pin hole of the guitar strap.

Pull the Gulley Hook through the new loop.

Loop under the guitar's neck at the base and hook the plastic-hook into the bottom of the sound-hole, allowing the guitar's neck to rest on the braid of the Gulley Hook.

Attach the the other end of the strap to the strap pin of the guitar.

Done.
